In response to the action mailed September 30, 1999, please amend the application as follows:

In the Claims:

Amend claim 17 as follows:

RECEIVED  
 FEB - 7 2000  
 3100 MAIL ROOM

--17. (Amended) A device comprising first and second hand-held tools for shearing by transverse forces a body having a non-circular cross-section by the application of torsional force, said first tool comprising a first disc and said second tool comprising a second disc [upper and lower discs], each of said discs having an upper side and a lower side, said [upper] first disc having opposing cutting edges [in the form of a fixed slot at its lower side] formed by a slot of fixed dimensions, and said [lower] second disc having opposing cutting edges [in the form of a fixed slot at its upper side] formed by a slot of fixed dimensions, said [sides] discs directly touching each other at said edges, each of said discs having a handle attached thereto for rotating said discs counter to one another about a rotation axis to apply a torsional shearing force on the body in a plane transverse to the longitudinal axis of the body,
